ATLANTIC, TOMORROW'S OFFICE ACQUIRES MANAGED IT SERVICES PROVIDER

Thursday, July 5th – Atlantic, Tomorrow's Office, a New York based national leader in the imaging products, solutions and IT services arena, has expanded their Managed IT Services division with the acquisition of Third Eye Technologies.

Third Eye Technologies provides Managed IT Services and Tech Support to help diverse corporate and nonprofit clients maximize their investment in technology and boost their productivity by providing flexible, reliable IT support services throughout Rockland and Westchester County.

"This benefits each of our 18,000 Atlantic customers, who now have immediate access to more of the areas most experienced IT professionals providing them expertise to help improve their productivity and reduce their operating costs" stated Larry Weiss, CEO and President at Atlantic, Tomorrow's Office."

"Our team is very excited to join an organization with so many more resources we can bring to our current and future clients" stated Doug Clickner, COO at Third Eye Technologies. "Our IT capabilities in the areas of Managed Services, Data Protection and Help Desk support will be a perfect complement to Atlantic's IT services division."

Third Eye Technologies clients will enjoy immediate access to Atlantic's award winning selection of office technology products. To learn more about these solutions, please visit www.tomorrowsoffice.com.

Both Atlantic and Third Eye customers are encouraged to contact their representative to learn more about how this announcement can benefit their company and their bottom line or contact Bill McLaughlin, CTO and Vice President, Managed Services at 212-741-6400 ext. 2130 or bmclaughlin@tomorrowsoffice.com.

About Third Eye Technologies

Third Eye Technologies partners with organizations to maximize their investment in technology and boost productivity by providing flexible, reliable IT support services. From maintenance and support to Backup & Business Continuity, clients pay one monthly fee and enjoy knowing they have 24/7 IT support. Third Eye Technologies is specifically sized and prepared to provide technical support services

for organizations that may or may not have the internal resources to stay abreast of best of breed IT solutions that can benefit their business.

About Atlantic, Tomorrow's Office

Atlantic, Tomorrow's Office is a national leader in the office automation and managed services arena. Founded in 1959 as Atlantic Photocopy, the company has since grown from a five person operation to a 250+ person organization now supporting advanced technology solutions to over 18,000 customers in the New York City metropolitan area. Atlantic is an Office Technology and IT Solutions company (VAR) providing niche horizontal and vertical market services to small and large corporations.
